

Take the [admin] power back.

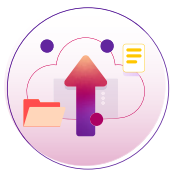

Our platform isn't for those who are satisfied with today's healthcare administration wasteland. If you want to stop wasting time and money, make the move to Madaket.

ALL-IN-ONE MEETS AUTOMATION

The Madaket Provider Management (PDM) platform stores, tracks, and monitors all mandatory provider information to complete critical healthcare administrative functions.

It's the single source of truth for the zillions of data points that flow between providers, payers, and the partners they work with.

UNDER THE HOOD OF MADAKET'S AUTOMATION PLATFORM

Provider Profile

Centralized, cloud-based data management includes structured data, unstructured text, and attached documents from everywhere providers need.

Payer Enrollment

We maintain all the configurations to our nationwide library of 4,000+ payers. Access and manage them all in your profile for fast, stress-free enrollments.

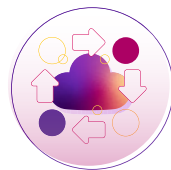

Credentialing

A simpler, sensible, and automated way to complete provider verification. Submit the request and we'll get it done.

Analytics & Insights

An engine to help you review data and spot errors that can save you money.

EDI Enrollment

Madaket's intuitive task management system helps individual providers, practices, and facilities maintain enrollment.
